

M/s. Engineering Supplies

**We are the leading Manufacturer, Supplier and Exporter of
HSS / Carbide Slitting Saw.**

HSS SLITTING SAW

HSS Saw manufactured by us, are of international quality, in the standard range from 40mm Dia to 400mm Dia and thickness 0.2mm to 6mm.

They are suitable for cutting Ferrous, Non-Ferrous Metal as well as Plastic & Composite material.

These saw are made with hollow ground with a flange and tooth form A, AW, B, BW C & BR.

A : Straight Tooth		Normal for < 3 mm Pitch
AW : Straight Bevel		Variant of above
B : Curved Tooth		Normal for < 3 mm Pitch
BW : Curved Tooth		Thin Well Steel Tubes 3 or 4 mm Pitch
C : Triple Chip		General Purpose for Steel > 4 mm Pitch
BR : Chipbreaker		Thin Wall Tubes > 4 mm Pitch TIN Coated, Higher Speeds and Feeds can be used

HSS Slitting Saws are manufactured as per IS and DIN, however we can also manufacture as per industrial Standards : BIS (G.B.), NFE (France), JIS (Japan), UNI (Italy), ANSI (USA)

We can also manufacture special saw as per customer drg.

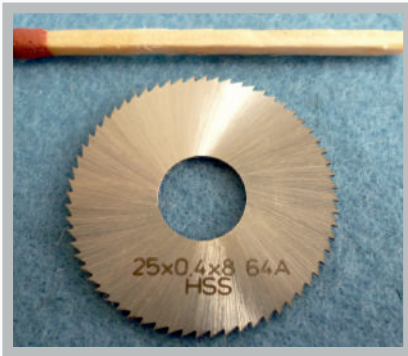

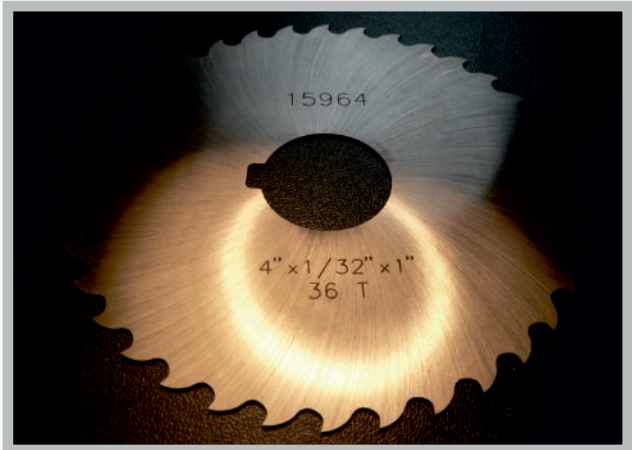

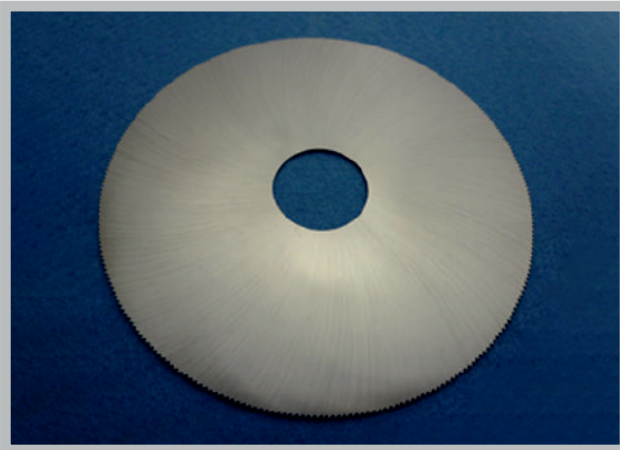

We can also supply you SOLID CARBIDE SAW.

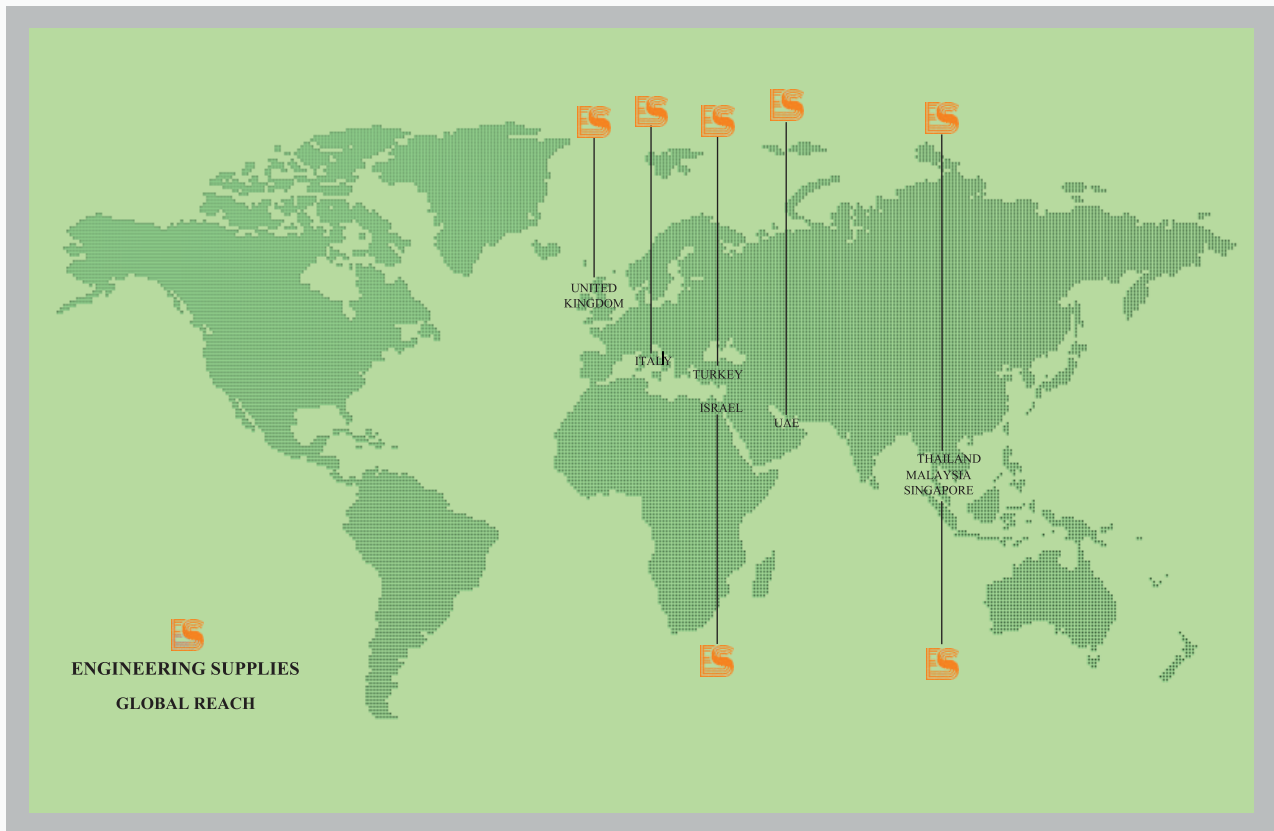

We have specially developed Extra Fine Pitch Slitting Saw Cutter for Jewellery Industry.

Circular saw blades from material HSS for jewellery production. These saw blades are made with hollow ground with a flange and tooth form A. Tooth pitch is finer than 1 mm, which enables very precise work.
